

COVID-19 Recovery Premium funding – 2022/23

We receive the minimum payment for the COVID-19 Recovery Premium.

We are using the COVID-19 Recovery Premium for Quality First Teaching for the children at all times. Classes will be teacher led at all times (including when covering PPA and release time).

Teachers and teaching assistants also deliver bespoke interventions to the children, including “Keep Up” Phonics, Reading, and Maths interventions. Those that require additional speech and language support receive one:one intervention guided by speech and language therapists and carried out by teaching assistants. Children who require additional support with their emotional well-being and social skills, receive regular sessions with a qualified Thrive practitioner.

These arrangements are key to securing positive outcomes for children in light of their two disrupted years of education due to the pandemic.
